Fusion Monitoring Solutions

Hosted Central Station

- ◆ Eliminate costly expenses to upgrade to the newest UL certifications
- ◆ Maintain UL 827 by letting Quick Response host your Central Station
- ◆ Industry Leading Monitoring Solutions with the most advanced automation platform
- ◆ Quick Response, Five Diamond trained operators available 24/7
- ◆ Load Balancing during heavy activity

Full Hosted Solution:

- ◆ Quick Response provides the entire infrastructure and software in the cloud
- ◆ Reduce overhead costs of running a Central Station
- ◆ Eliminate costly equipment needed to run your own Central Station

Semi-Hosted Solution:

- ◆ Maintain your current equipment, but let us house your data
- ◆ Servers and Automation platform are provided in the cloud

Costs

Part-time Monitoring

- ◆ Decrease labor costs and overtime pay by only staffing your operators part time and let Quick Response do the rest.
- ◆ Operate less than 168 hours per week
- ◆ Load-Balancing during periods of high activity

Disaster Recovery and Data Resiliency

- ◆ Maintain your own Central Station, while having your data replicated at Quick Response and have a full, Redundant Central Station
- ◆ Near zero downtime with instant failover in case of emergency
- ◆ Load-Balancing during heavy storm activity or emergency situations

Industry Leading Monitoring Technology

- ◆ Interactive Voice Response (IVR)
- ◆ Text Messaging (SMS)
- ◆ SMS Chat (Coming Soon)
- ◆ Video Verification
- ◆ Alarm.com Integration
- ◆ Dealer Portal and Mobile Application
- ◆ Open API for ease of integration to the things you need most
