

Where Are Your Accounts Monitored?

Our preparation gives us the endurance to continuously provide **professional monitoring services from within our hardened facilities.**

Since our founding, our choice has been to keep critical monitoring operations staff **on-site**. Monitoring from home provides lower-quality service (security issues/distractions). We believe you should expect more.

Remote work has touched every industry, and every business has had to make choices about “how” they will do business. Knowing our business is “critically different” from the rest...

We've Made Our Choice.

**RAPID RESPONSE
MONITORING**

versus...

The industry's highest-trained monitoring Specialists work on-site from our 3 hardened facilities.

- Unfailing power redundancy
- Multi-carrier phone/internet connections
- Strict security (access by cleared staff only)
- No distractions: dogs barking, kids playing, doorbells, etc.

Our facilities are custom engineered to exceed all industry standards, including ergonomic and workplace standards.

We have advanced cybersecurity platforms, on-site security guards, Stage II UV light filtration system, UV disinfecting equipment, and 24/7 cleaning staff.

*Are your
“at-home operators”
focused on your
customers?*
